OUR TEAM

Meet Our Sales Director:

Tilak Detroja, a seasoned professional with over 10 years of experience in the packaging industry, leads our sales team at Polycore Fab LLP. With his strategic approach, extensive knowledge of FIBCs, and a proven track record of surpassing targets, Tilak drives our company's growth and ensures exceptional customer satisfaction. His dedication to building collaborative relationships and providing outstanding customer service makes him the trusted go-to person for all your packaging needs.

Introducing Our Purchase Director:

Jaydeep Merja, our esteemed Purchase Director, brings a wealth of expertise and experience to Polycore Fab LLP. With a deep understanding of procurement processes and a keen eye for cost-effective solutions, Jaydeep leads our procurement team in sourcing high-quality materials and optimizing our supply chain. His strategic approach and commitment to excellence ensure that our customers receive top-notch products at competitive prices. Trust Jaydeep and his team to deliver the best procurement solutions for your FIBC needs.

Meet Our Production Director:

Naman Merja, our accomplished Production Director, is the driving force behind our manufacturing operations at Polycore Fab LLP. With his extensive knowledge of production processes and unwavering commitment to quality, Naman ensures that every FIBC we produce meets the highest industry standards. His strategic planning and effective leadership enable us to deliver products efficiently, meeting tight deadlines without compromising on quality. With Naman at the helm, you can trust us to provide reliable, durable, and customized FIBCs tailored to your specific requirements.

CUSTOMISATION

QUALITY, TESTING & LAB

We believe 'Quality Assures Alliances'. For this very reason, quality is the epitome of our system.

Right from procurement, to manufacturing, to delivery, all the way to after sales service, we have the values of highest quality imbibed in every facet of our business. One of the biggest strengths of our quality protocols is third party audit.

We employ reputed external quality inspectors, who report directly to the top management, thus ensuring that all our processes are always in immaculate conditions. In addition, we also use superior grade polymers and other additive materials combined with our world-class processing technologies, throughout our manufacturing activities.

Our judicious methods have earned us numerous accolades from across the world:

- ISO 9001:2015
- ISO 22000:2018
- CONTECNA, LABORDATA

SUPPORT

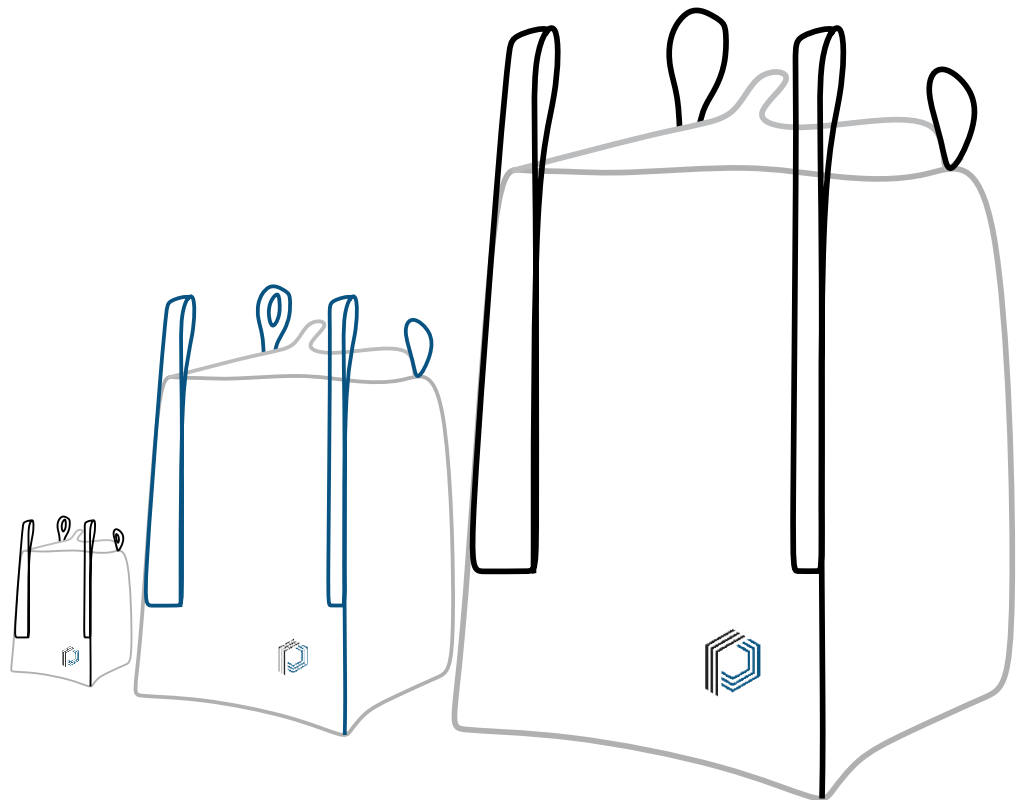

LOHIA CORP LIMITED

PRODUCT LIST

- FIBC/ BULK BAGS/ BIG BAGS
- PP WOVEN FABRIC

UN Bag, Sift Proof Bag

Special types of bag used for transportation of dangerous material having fine minute particle size.

Ventilated Big Bag

Breathable bag that helps in transportation of perishable products.

Type C Bag

Conductive FIBC Bag

Type D Bag

Crohmiq Type D FIBC Bag

PP WOVEN SACKS

Our water and moisture proof polypropylene sacks are ideal for packing food grains, spices and fertilizers. They offer ample breathing space for packed grains and are available in a host of fascinating colors, designs and sizes.

Its salient features are as follows:

- Light weight, easy & cheap to transport
- Can be gusseted to further improve stacking
- Bright 2/3/4 color printing offers aggressive marketing prospects
- Cost effective
- Can be coated or uncoated
- No Seepages, especially in poly lined or laminated bags
- High tensile strength and durability

PP WOVEN FABRIC & CLEAR SHEET

Our PP Wrapping Fabric and Clear Sheet are in sync with international standards and are known for its excellent durability standard amongst our clients. They can be customised in length, weight, gusset, meshes and colors to suit the demands of our clients.

Its salient features are as follows:

- Improved stiffness
- Resistant to heat
- Long lasting

MULTI FILAMENT YARN

Our multi-filament yarn offers exceptional strength, resilience, and longevity. This ensures optimal performance and reliability, even in rigorous environments. Whether you're involved in packaging, transportation, or construction, our multi-filament yarn is a reliable choice to enhance your product's quality and durability.

CONTAINER LINER

We make container liner, especially designed for export of dry products. The most common sizes are for standard. 20 ft and 40 ft export containers.

SLING BAG

Sling Bag is a heavy duty performer, designed to safely lift and lower cargo multiple times. Each loop, weave and fabric is pressure tested to maximum levels to ensure that our slingbags give you optimal functionality, for transporting on land or in the sea, using hooks, cables, cranes, etc. All bags manufactured using polypropylene fabric tote with four polyester lifting loops designed to move the burlap bags with a single point pick up.

OUR REACH

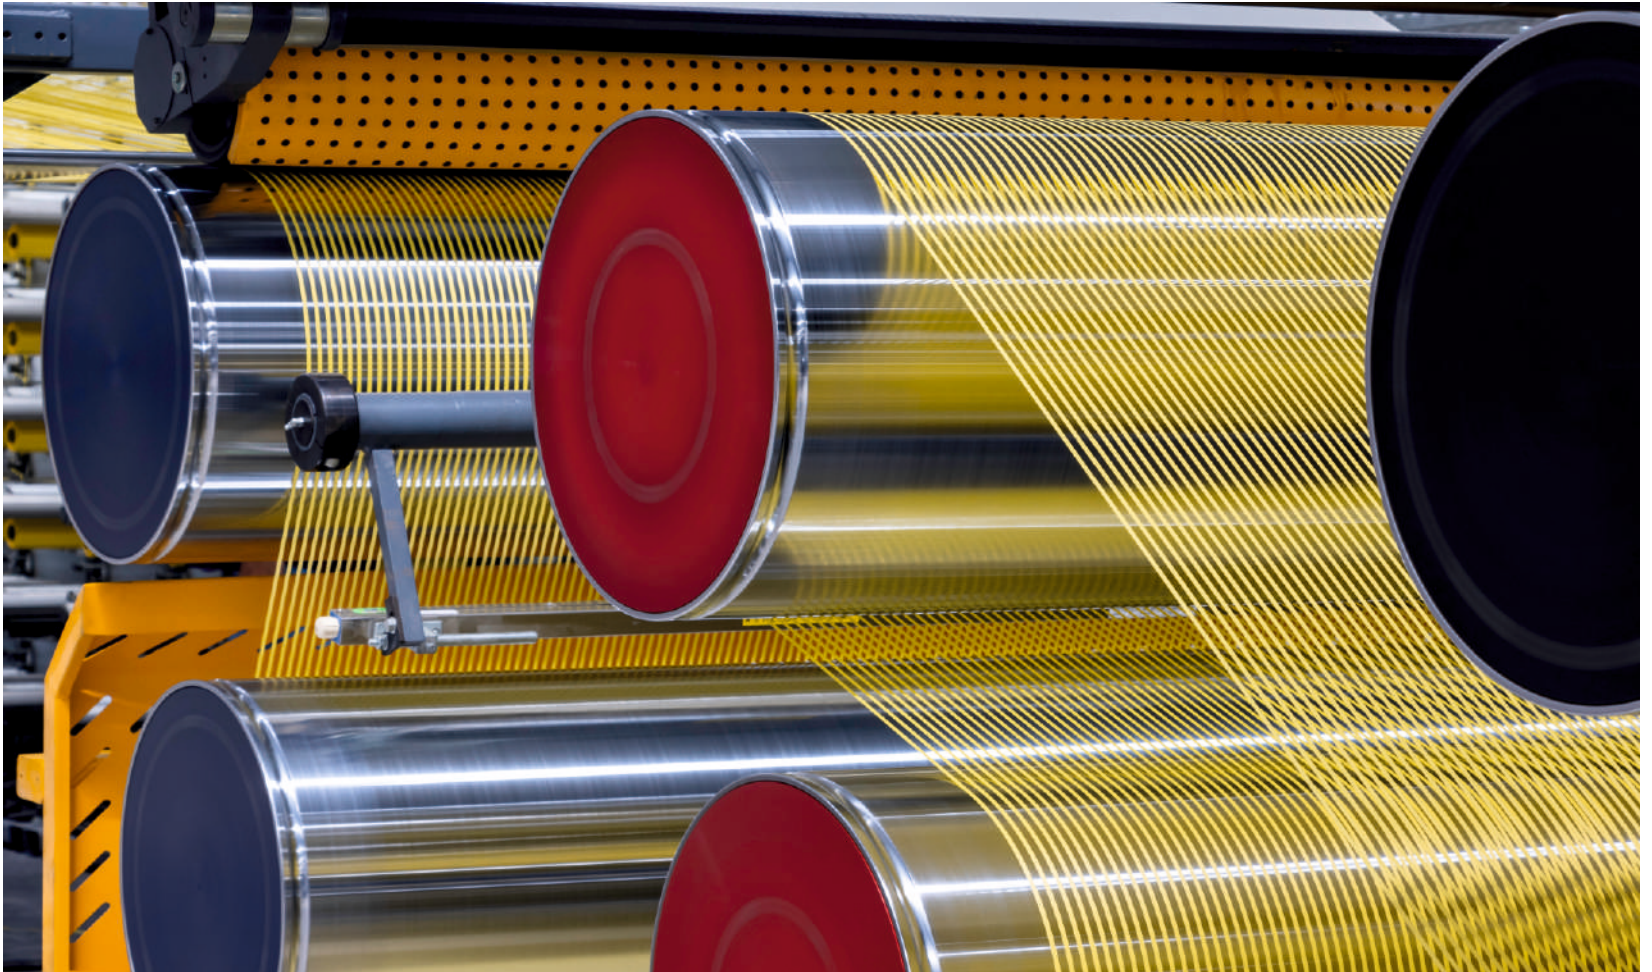

At Polycore fab LLP, we are dedicated to providing top-quality FIBC solutions tailored to meet your unique needs. Our commitment to innovation, customization, and exceptional customer service sets us apart in the industry.

With a strong global presence, we cater to clients across diverse sectors and geographical locations. Our reliable network of distribution and logistics partners ensures that our FIBCs reach you efficiently and on time, no matter where you are located.

We pride ourselves on being a trusted partner for businesses worldwide. Whether you need FIBCs for agriculture, chemical, food, pharmaceutical, or construction applications, our comprehensive range of products and customization options guarantee the perfect packaging solution for your valuable products.
